HOYT NURSERIES

NEW CANAAN • • CONN.

Telephone: 1333

Introduction ~

1848 - 1940

IN 1848, just 92 years ago this spring, Stephen Hoyt, grandfather of our present president, founded this Nursery.

From a modest beginning our business grew until we now have over 600 acres covered with specimen trees and plants of all descriptions. We have always attempted to grow trees of the finest quality, priced fairly.

We wish to thank our thousands of friends for the liberal and ever-increasing patronage which has been bestowed upon us, and we aim to offer still finer trees and better service in the years to come.

The
Stephen Hoyt's Sons Co.

INCORPORATED

New Canaan • Connecticut

Notice to Customers

PLANTING-TIME

The spring season starts as soon as the frost is out of the ground and extends throughout April, May, and June.

Most material is so grown that late planting can be done successfully. Since most of our plant material comes balled and burlapped (B&B), it is possible for us to move plants in late spring, and in early autumn. However, we reserve the right to ball and burlap, at extra charge, those items not so listed, when they are in leaf or in a growing condition.

The fall season starts in August and extends through December, or as long as the ground is open.

Schedule of Balling and Burlapping (B & B) Charges

Deciduous Shrubs, Vines, Etc.		Deciduous and Ornamental Trees		
Plant Size	Charge	Tree Size	Size of Ball	Charge
2 to 3 ft.	\$0 30	6 to 8 ft. high	18 in.	\$1 50
3 to 4 ft.	50	1½ to 2-in. cal.	20 to 24 in.	3 50
4 to 5 ft.	60	2 to 2½-in. cal.	24 to 26 in.	5 00
5 to 6 ft.	75	2½ to 3-in. cal.	26 to 30 in.	6 00
6 to 8 ft.	1 25	3 to 4-in. cal.	30 to 36 in.	7 50

The above prices apply to those items in our Catalogue which are not priced Balled & Burlapped (B&B), when Balling is necessary or requested.

LANDSCAPE SERVICE

Our Landscape Department will be glad to be of assistance to you, without charge, in advising you about your plantings. However, if plans and specifications are furnished, a charge will be made to cover these expenses. This charge will be deducted if our Nursery furnishes the plant material.

PRICES

Prices in this list are f.o.b. New Canaan, Conn., and are for our selection only. Plants selected by our customers will be charged for according to their individual value. All quotations offered are subject to prior sale. These prices supersede all others and are subject to change without notice.

DELIVERIES

Deliveries are made free within a radius of 15 miles on scheduled days. Special deliveries and distant deliveries will be charged for at the rate of 20 cents a mile in one direction. Plant material will be delivered to your grounds but **will not be carried to planting locations** unless previously arranged for at extra charge.

Phone: 1333 and 1334

RESERVATIONS

Plants marked in the Nursery for future delivery will be held over for one season only, or six months' time, unless payment is made. Plants are held at the buyer's risk.

PACKING

Packing will be charged for at cost on freight and express shipments.

TERMS

Cash or satisfactory references must accompany all orders, unless the person ordering is known to us.

GUARANTEE

It is our policy to guarantee our nursery products for a full year, and to replace without charge any plant or tree which dies within that time, provided payment is received within 30 days. However, we insist that our material must be properly planted and cared for and that it be planted in a place where there is a reasonable chance of its thriving, otherwise the guarantee is void.

The cost of planting and transportation of replaced trees is borne by the purchaser, and replacement is done at our convenience.

AMERICAN CEDAR, 30 feet tall; stem diameter 10 inches; diameter of ball 7 feet. This tree was planted for one of our clients in 1936 and is thriving today.

Trees of this size moved quickly and economically with our modern equipment.

LARGE SUGAR MAPLE, 45 feet high; diameter of trunk 16 inches. Note symmetrical 12-foot ball of earth and fibrous roots. This tree was planted in 1935 and is thriving today.

Large-Tree Moving

Our Nursery is well equipped for the moving of large trees up to 18 and 20 inches in diameter. For the last thirty-five years we have moved thousands of these trees successfully, and they have been a satisfaction to their owners. Fall or winter is the best time for moving large trees, since it is then possible to do this heavy work more easily and thus more economically.

We are in a position to furnish large trees from our Nursery, or can move trees on your estate. Our representative would be glad to call and quote prices on moving or furnishing.

A shady retreat made possible

Ornamental and Shade Trees

Possibly the most attractive features in many of our New England towns are the large shade and ornamental trees. It is absolutely necessary to include deciduous trees in your home or street plantings, since no other trees can equal in foliage or growing characteristics those produced by this group.

It is important to plant some of these trees each year, since it takes from ten to twenty-five years to produce a good-sized specimen. Plant medium-sized trees and they will grow rapidly into lofty specimens.

Trees not marked B&B (Balled and Burlapped) can be moved with bare roots when taken early in spring, before leaves appear, or in fall when leaves have fallen. Some deciduous trees are sold by height and some by caliper (diameter of trunk). Trees sold by caliper are measured 1 foot above the ground.

ACER palmatum atropurpureum. Japanese Red Maple.
12 to 15 ft.

A beautiful, semi-dwarf, red-foliaged tree which stands out in any location. Each

1½ to 2 ft., B&B.....	\$2 50
2 to 3 ft., B&B.....	3 00
3 to 4 ft., B&B.....	5 00
4 to 5 ft., B&B.....	6 00
5 to 6 ft., B&B.....	7 50
6 to 8 ft., B&B.....	15 00
8 to 10 ft., B&B.....	20 00

by planting large trees

Ornamental and Shade Trees

Acer palmatum dissectum. Japanese Green Cut-leaf Maple. 5 to 6 ft.

Dwarf tree, similar in growth to the Red Weeper.	Each
1½ to 2 ft., B&B.....	\$5 00
2 to 2½ ft., B&B.....	7 50
2½ x 3 ft., specimen, B&B.....	10 00
3 x 4 ft., specimen, B&B.....	20 00
4 x 4 ft., specimen, B&B.....	30 00
5 x 5 ft., specimen, B&B.....	40 00
5½ to 8 ft., specimen, B&B.....	\$50 and up

A. palmatum dissectum atropurpureum. Japanese Red Cut-leaf Maple. 5 to 6 ft.

Dwarf tree with deeply cut light red foliage. Forms a rounded top and weeps to the ground.

1½ to 2 ft., B&B.....	7 50
2 to 2½ ft., B&B.....	10 00

A. platanoides. Norway Maple. 60 to 80 ft.

A beautiful, full, round-topped Maple with large green leaves. Casts a very dense shade. Holds foliage till late fall. Yellow autumn color.

2 to 2½-in. cal., 14 to 16 ft. high.....	5 00
2½ to 3-in. cal., 14 to 16 ft. high.....	7 50
3 to 3½-in. cal., 16 to 18 ft. high.....	10 00
3½ to 4-in. cal., 18 to 20 ft. high.....	15 00
4 to 4½-in. cal., 18 to 20 ft. high, B&B.....	27 50
4½ to 5-in. cal., 20 to 22 ft. high, B&B.....	30 00
5 to 5½-in. cal., 20 to 22 ft. high, B&B.....	40 00
5½ to 6-in. cal., 22 to 25 ft. high, B&B.....	60 00
6 to 7-in. cal., 22 to 25 ft. high, B&B.....	75 00

Ornamental and Shade Trees

Norway Maple (*Acer platanoides*). See page 5

Acer platanoides Schwedleri. *Schwedler Maple*.
60 to 80 ft.

A variety of the Norway Maple with rich purple-red leaves in early spring, changing to dark green in midsummer. Each

2 to 2½-in. cal., 12 to 14 ft. high.....	\$5 00
2½ to 3-in. cal., 14 to 16 ft. high.....	7 50
3 to 3½-in. cal., 16 to 20 ft. high.....	10 00
3½ to 4-in. cal., 16 to 20 ft. high.....	15 00

A. saccharum. *Sugar or Rock Maple*. 100 ft.

The most gorgeous Maple for fall color, ranging from yellow to a vivid scarlet. Upright and stately in growth.

2 to 2½-in. cal., 14 to 16 ft. high.....	7 50
2½ to 3-in. cal., 18 to 20 ft. high.....	12 00
3 to 3½-in. cal., 18 to 20 ft. high.....	20 00
3½ to 4-in. cal., 20 to 22 ft. high, B&B.....	30 00
4 to 4½-in. cal., 22 to 25 ft. high, B&B.....	40 00
6 to 7-in. cal., 25 to 35 ft. high, B&B.....	100 00
7 to 8-in. cal., 30 to 40 ft. high, B&B.....	\$125 and up

Larger sizes on application.

BETULA alba. *European White Birch*. 40 to 50 ft.

Creamy white bark. Good as a background against evergreens; also used in clumps.

6 to 8 ft., B&B.....	5 00
8 to 10 ft., B&B.....	7 50

B. alba laciniata. *Cut-leaf Weeping Birch*. 30 to 40 ft.

Deeply cut green leaves on white branches which droop gracefully to the ground like a large fountain.

8 to 10 ft., B&B.....	7 50
10 to 12 ft., B&B.....	9 00
12 to 15 ft., B&B.....	12 00

Ornamental and Shade Trees

Betula papyrifera. Canoe Birch. 80 to 90 ft.

Originates in the Adirondacks. Characteristic white bark is not evident until the tree is slightly older than other varieties of White Birch. A long-lived tree.

	Each
5 to 6 ft., B&B.....	\$4 00
6 to 8 ft., B&B.....	6 00
8 to 10 ft., B&B.....	8 00
10 to 12 ft., B&B.....	10 00

CERCIDIPHYLLUM japonicum. Katsura Tree.

70 to 80 ft.

Pyramidal, with dense habit of growth. Young leaves are purplish, turning to green in summer, then bright golden in autumn. An excellent contribution for landscape work.

5 to 6 ft., B&B.....	5 00
6 to 8 ft., B&B.....	7 50
8 to 10 ft., B&B.....	10 00
10 to 12 ft., B&B.....	15 00
12 to 15 ft., B&B.....	18 00

CLADRASTIS lutea. Yellow-Wood. 40 to 50 ft.

A fine vase-shaped tree with loose bunches of fragrant white flowers in early June. Its foliage turns bright yellow after frost. A scarce variety.

2½ to 3-in. cal., 10 to 12 ft. high, B&B.....	20 00
3 to 3½-in. cal., 12 to 14 ft. high, B&B.....	30 00
3½ to 4-in. cal., 14 to 18 ft. high, B&B.....	40 00

FAGUS sylvatica. European Green Beech.

80 to 90 ft.

Attractive green leaves. Grows slowly into beautiful specimens. Makes excellent hedges and screens.

3 to 4 ft.....	3 00
4 to 5 ft.....	4 00
5 to 6 ft.....	6 00
6 to 8 ft.....	7 50
8 to 10 ft.....	10 00
10 to 12 ft.....	12 50
4 to 4½-in. cal., 16 to 18 ft. high, B&B.....	30 00
4½ to 5-in. cal., 18 to 20 ft. high, B&B.....	35 00
5 to 5½-in. cal., 18 to 20 ft. high, B&B.....	45 00
5½ to 6-in. cal., 20 to 25 ft. high, B&B.....	55 00
6 to 6½-in. cal., 20 to 25 ft. high, B&B.....	65 00
6½ to 7-in. cal., 25 to 30 ft. high, B&B.....	75 00
7 to 7½-in. cal., 25 to 30 ft. high, B&B.....	90 00
7½ to 8-in. cal., 25 to 30 ft. high, B&B....	\$135 and up

Larger sizes on application.

F. sylvatica atropurpurea. Copper Beech.

80 to 90 ft.

One of our finest lawn trees, with wine-colored leaves in spring and early summer, fading to copper in July. This tree is one of the hardiest in the nursery.

3 to 4 ft.....	3 00
4 to 5 ft.....	5 00
1½ to 2-in. cal., 6 to 8 ft. high.....	7 50
2 to 2½-in. cal., 10 to 12 ft. high.....	10 00
2½ to 3-in. cal., 12 to 14 ft. high, B&B.....	20 00
3 to 3½-in. cal., 14 to 16 ft. high, B&B.....	22 50
3½ to 4-in. cal., 14 to 16 ft. high, B&B.....	25 00
4 to 4½-in. cal., 16 to 18 ft. high, B&B.....	30 00
4½ to 5-in. cal., 16 to 18 ft. high, B&B.....	35 00
5 to 5½-in. cal., 16 to 20 ft. high, B&B.....	45 00
5½ to 6-in. cal., 18 to 20 ft. high, B&B.....	55 00
6 to 6½-in. cal., 18 to 22 ft. high, B&B.....	65 00
6½ to 7-in. cal., 20 to 22 ft. high, B&B....	\$75 and up

Larger sizes on application.

Block of several hundred **European Green Beech** (*Fagus sylvatica*) ranging in height from 15 to 22 feet, and 5 to 7 inches diameter stem. All specimen plants.

Ornamental and Shade Trees

Fagus sylvatica heterophylla. Fern-leaf Beech. 40 to 50 ft.

Deeply cut leaves. Branches from ground to tip, like a huge globe. A good hedge or screen tree. Each

2 to 3 ft.....	\$3 00
3 to 4 ft.....	5 00
4 to 5 ft.....	7 50
6½ to 7-in. cal., 15 to 20 ft. high, B&B.....	85 00
7 to 7½-in. cal., 15 to 20 ft. high, B&B.....	100 00
7½ to 8-in. cal., 15 to 20 ft. high, B&B.....	125 00

F. sylvatica pendula. Weeping Green Beech.

25 to 40 ft.

Similar to European Green Beech, but with drooping branches and more dwarf in growth.

3 to 4 ft., B&B.....	6 00
4 to 5 ft., B&B.....	7 50
5 to 6 ft., B&B.....	10 00
6 to 8 ft., B&B.....	12 50
8 to 10 ft., B&B.....	15 00
10 to 12 ft., B&B.....	20 00

GINKGO biloba. Maidenhair Tree. 100 ft.

One of the oldest trees in existence. Immune from all diseases. Very slow, irregular grower.

2 to 2½-in. cal., 12 to 15 ft. high, B&B.....	15 00
2½ to 3-in. cal., 12 to 15 ft. high, B&B.....	20 00
3 to 3½-in. cal., 13 to 15 ft. high, B&B.....	25 00

GLEDITSIA triacanthos. Honey Locust. 40 to 50 ft.

An irregular-growing shade tree. Excellent for street, city, and highway plantings. Grows well along the shore. Fine for hedges.

4 to 5 ft.....	1 00
5 to 6 ft.....	1 50

LIRIODENDRON tulipifera. Tulip Tree. 40 to 60 ft.

Columnar-growing tree. Flowers greenish yellow with orange base. Often called "Whitewood."

2½ to 3-in. cal., 10 to 12 ft. high, B&B.....	15 00
3 to 3½-in. cal., 12 to 14 ft. high, B&B.....	18 00

Ornamental and Shade Trees

LIQUIDAMBAR styraciflua. *Gum Tree*. 50 to 60 ft.

A fine pyramidal tree with large maple-like leaves which turn a blazing scarlet in the fall. Bark of corky texture. Suitable for swampy conditions as well as in higher ground.

	Each
5 to 6 ft., B&B.....	\$5 00
6 to 8 ft., B&B.....	7 50
8 to 10 ft., B&B.....	10 00
10 to 12 ft., B&B.....	15 00

MORUS alba pendula. *Teas' Weeping Mulberry*.

6 to 8 ft.

Picturesque tree for lawn plantings. Gives an artificial fountain-like appearance.

5 to 6-ft. stem, specimen.....	5 00
--------------------------------	------

PLATANUS orientalis. *European Plane*. 70 to 80 ft.

Large, picturesque, fast-growing tree, easily recognized by its gray and white bark. Most useful for streets, parks, seashore, and rough situations where a tough durable specimen is required. Resists insects.

2 to 2½-in. cal., 14 to 16 ft. high.....	8 00
2½ to 3-in. cal., 16 to 18 ft. high.....	12 00
3 to 3½-in. cal., 18 to 20 ft. high.....	15 00
3½ to 4-in. cal., 18 to 20 ft. high.....	20 00
4 to 4½-in. cal., 20 to 22 ft. high, B&B.....	30 00
4½ to 5-in. cal., 22 to 25 ft. high, B&B.....	40 00
5 to 5½-in. cal., 25 to 30 ft. high, B&B.....	50 00
5½ to 6-in. cal., 25 to 30 ft. high, B&B.....	60 00
6 to 6½-in. cal., 30 to 35 ft. high, B&B.....	75 00
6½ to 7-in. cal., 30 to 35 ft. high, B&B.....	85 00
7 to 7½-in. cal., 30 to 35 ft. high, B&B.....	95 00
7½ to 8-in. cal., 30 to 35 ft. high, B&B....	\$125 and up

POPULUS simoni. *Simon Poplar*. 30 to 35 ft.

Vigorous, stately, pyramidal tree. Shiny green foliage, free from diseases.

5 to 6 ft.....	1 50
6 to 8 ft.....	2 00

Quercus . Oak

Quercus coccinea. *Scarlet Oak*. 50 to 60 ft.

Deeply cut foliage on round-headed tree. Bright scarlet in fall.

1½ to 2-in. cal., 10 to 12 ft. high.....	7 50
2 to 2½-in. cal., 12 to 14 ft. high.....	12 00
4 to 5-in. cal., 20 to 30 ft. high, B&B.....	50 00
5 to 6-in. cal., 25 to 35 ft. high, B&B.....	60 00

Q. palustris. *Pin Oak*. 70 to 80 ft.

Sturdy, pyramidal, rugged, and irregular. Grows rapidly. Deeply cut green foliage turns rich crimson in fall. A swamp tree which can be planted to advantage in any type of soil.

1¾ to 2-in. cal., 10 to 12 ft. high.....	6 00
2 to 2½-in. cal., 12 to 14 ft. high.....	10 00
2½ to 3-in. cal., 14 to 16 ft. high.....	15 00
3 to 3½-in. cal., 16 to 18 ft. high, B&B.....	25 00
3½ to 4-in. cal., 18 to 20 ft. high, B&B.....	35 00
4 to 4½-in. cal., 20 to 22 ft. high, B&B.....	45 00
4½ to 5-in. cal., 20 to 22 ft. high, B&B.....	50 00
5 to 5½-in. cal., 20 to 22 ft. high, B&B.....	55 00
5½ to 6-in. cal., 20 to 22 ft. high, B&B.....	65 00
6 to 6½-in. cal., 22 to 25 ft. high, B&B.....	75 00
6½ to 7-in. cal., 22 to 25 ft. high, B&B.....	85 00
7 to 7½-in. cal., 25 to 30 ft. high, B&B.....	100 00
7½ to 8-in. cal., 25 to 30 ft. high, B&B....	\$125 and up

Larger sizes on application.

Q. rubra. *Red Oak*. 75 to 90 ft.

A towering specimen. When leafing in the spring, it gives a pink effect. Later, the leaf is a bright green, turning to crimson-red in autumn, and hanging on till spring.

1½ to 2-in. cal., 8 to 10 ft. high.....	7 50
2 to 2½-in. cal., 12 to 14 ft. high.....	12 00
2½ to 3-in. cal., 14 to 16 ft. high.....	15 00

Ornamental and Shade Trees

SALIX babylonica. *Babylon Weeping Willow.* 25 to 30 ft.

Old-fashioned Green Willow. Irregular, vertical weeping limbs with long, narrow leaves. Grows most rapidly by streams and pools.

	Each
4 to 5 ft.....	\$1 25
5 to 6 ft.....	1 50
6 to 8 ft.....	2 00

S. elegantissima. *ThurLOW Weeping Willow.* 50 to 60 ft.

The fastest-growing Weeping Willow. A beautiful tree for planting near rivers or in other moist spots.

6 to 8 ft.....	1 50
8 to 10 ft.....	2 50
1½ to 2-in. cal., 8 to 10 ft. high, B&B.....	5 00
2 to 2½-in. cal., 10 to 12 ft. high, B&B.....	7 50
2½ to 3-in. cal., 14 to 16 ft. high, B&B.....	10 00

S. vitellina pendula. *Golden Weeping Willow.* 40 to 50 ft.

Fast-growing with fine foliage. Distinct in winter, due to its golden bark. A graceful weeper.

5 to 6 ft.....	1 25
6 to 8 ft.....	2 00
8 to 10 ft.....	3 00
1½ to 2-in. cal., 8 to 10 ft. high, B&B.....	5 00
2 to 2½-in. cal., 8 to 10 ft. high, B&B.....	7 50

SORBUS aucuparia. *Mountain-Ash.* 25 to 30 ft.

Well known in Europe for its great clusters of orange-red fruit. The robins in this country love these berries.

6 to 8 ft., B&B.....	6 00
8 to 10 ft., B&B.....	9 00
2½ to 3-in. cal., 10 to 12 ft. high, B&B.....	12 50
3 to 3½-in. cal., 12 to 14 ft. high, B&B.....	15 00

TILIA cordata. *European Small-leaved Linden.* 60 to 80 ft.

One of the best Lindens for street plantings in our climate. This is a small-leaved late-flowering Linden. Very fragrant.

8 to 10 ft.....	4 00
-----------------	------

T. vulgaris. *European Linden.* 70 to 80 ft.

Beautiful, small, light green foliage. Useful for street and specimen plantings.

2 to 2½-in. cal., 8 to 10 ft. high.....	7 50
2½ to 3-in. cal., 10 to 12 ft. high.....	10 00

Pin Oak. See page 9

Ulmus . Elm

Ulmus americana. American Elm. 75 to 100 ft.

A giant at once majestic and graceful. At home everywhere in northeastern United States. This noble tree is an institution in our New England towns.

The disease which threatened the Elm has been checked, and we have every reason to believe will be wiped out. We are selling hundreds of these trees each year and are propagating thousands for future sale, as we believe them to be the finest of all shade trees.

	Each
2 to 3-in. cal., 16 to 18 ft. high.....	\$7 50
3 to 3½-in. cal., 16 to 18 ft. high.....	10 00
3½ to 4-in. cal., 18 to 20 ft. high.....	12 50
4 to 4½-in. cal., 18 to 20 ft. high, B&B.....	22 50
4½ to 5-in. cal., 20 to 22 ft. high, B&B.....	27 50
5 to 5½-in. cal., 22 to 25 ft. high, B&B.....	32 50
5½ to 6-in. cal., 22 to 25 ft. high, B&B.....	40 00
6 to 6½-in. cal., 25 to 30 ft. high, B&B.....	50 00
6½ to 7-in. cal., 25 to 35 ft. high, B&B.....	60 00
7 to 7½-in. cal., 30 to 35 ft. high, B&B.....	75 00
7½ to 8-in. cal., 30 to 35 ft. high, B&B.....	85 00
8 to 8½-in. cal., 35 to 40 ft. high, B&B.....	125 00
8½ to 9-in. cal., 35 to 40 ft. high, B&B.....	150 00
9 to 9½-in. cal., 35 to 45 ft. high, B&B.....	175 00
9½ to 10-in. cal., 35 to 45 ft. high, B&B.....	200 00

U. americana. Moline-Type Elm. 50 to 60 ft.

More pyramidal in growth and having a central leader. Suitable for limited areas and narrow thoroughfares.

3 to 3½-in. cal., 20 to 22 ft. high.....	12 50

Flowering

Flowering Trees

There is probably no group of deciduous plants as popular or well known as this one. Their interesting habits of growth, with glossy foliage combined with gorgeous blossoms in the spring, and followed by attractive fruit of many colors in late summer and fall, make them an all-year-round satisfaction. Trees in this group thrive in almost all kinds of soil, and most varieties are very hardy. They flower best in full or partial sunshine.

ÆSCULUS hippocastanum. *White Horse-Chestnut.*
50 to 60 ft.

Breaks into foliage, combined with large clusters of white flowers, early in May. Grows into a lovely shade tree. Each

6 to 8 ft., B&B.....	\$5 00
8 to 9 ft., B&B.....	7 50

Æ. hippocastanum rubicunda. *Pink Horse-Chestnut.*
30 to 40 ft.

Ornamental tree bearing pink flowers in May.

8 to 10 ft. high, 2 to 2½-in. cal., B&B.....	7 50
10 to 12 ft. high, 2 to 2½-in. cal., B&B.....	10 00

CERCIS canadensis. *Red-bud; Judas Tree.*
20 to 25 ft.

Broad, irregular, vase-shaped tree which flowers from stem to tip before leaves appear. Flowers are rosy pink. A fine plant for wooded areas.

4 to 5 ft., B&B.....	3 50
5 to 6 ft., B&B.....	5 00
6 to 8 ft., B&B.....	7 50
8 to 10 ft., B&B.....	10 00

Crab-Apple. See page 16

CHIONANTHUS virginica. *White Fringe*. 20 to 25 ft.

Beautiful, drooping clusters of misty white flowers showing through broad green leaves. Bears blue fruit in autumn. Each

3 to 4 ft., B&B.....	\$2 00
4 to 5 ft., B&B.....	3 50
5 to 6 ft., B&B.....	5 00

Cornus . Dogwood

Cornus florida. *White-flowering Dogwood*. 25 to 50 ft.

The early spring beauty of its pure white flowers, the summer freshness of its soft green leaves, and the fall splendor of brilliant scarlet foliage and orange-red berries, as well as its individual habit of growth, make this tree outstanding.

Flowering Trees

Malus • Flowering Crab-Apple

These hardy flowering Crab-Apples thrive in almost all locations and exposures. No other flowering trees or bushes give such a profusion of bloom in the springtime. In the autumn they are adorned with clusters of fruits in many colors. Crab-Apples do best in a sweet, well-drained soil and require full sunshine for best results.

Malus arnoldiana. 12 to 15 ft.

Flowers in May, semi-double, deep pink. Bears miniature yellow apples which are relished by birds. Each

4 to 5 ft., B&B.....\$3 50

M. atrosanguinea. 12 to 15 ft.

Flowers in May, single, dark pink shading into light crimson. Broad shapely grower. Bears miniature yellow fruit in fall.

4 to 5 ft., B&B..... 3 50

5 to 6 ft., B&B..... 5 00

6 to 7 ft., heavy, B&B.....10 00

7 to 8 ft., heavy, B&B.....15 00

M. floribunda. 15 ft.

Light pink flowers in May followed by attractive tiny yellow-and pink-cheeked apples in fall.

4 to 5 ft., B&B..... 3 50

5 to 6 ft., B&B..... 5 00

6 to 7 ft., heavy, B&B.....10 00

M. ioensis bechteli. 15 ft.

Double, pink, rose-shaped flowers in late May.

3 to 4 ft., bare root..... 2 50

M. niedzwetzkyana. 12 to 15 ft.

Large, wine-colored flowers. Bears dark red fruit. Leaves are a light purple color.

4 to 5 ft., B&B..... 3 50

6 to 7 ft., heavy, B&B..... 7 50

7 to 8 ft., heavy, B&B.....10 00

M. robusta. 12 to 15 ft.

Creamy white flowers. Grows rapidly.

4 to 5 ft., B&B..... 3 00

M. sargentii. 8 to 9 ft.

Pure white flowers. Dwarf. Brilliant red berries which last well into the winter.

2 to 3 ft., B&B..... 4 00

3 to 4 ft., B&B..... 5 00

4 to 5 ft., standard, B&B..... 6 00

M. scheideckeri. 12 to 15 ft.

Large, semi-double, pink flowers. Formal upright grower. Bears waxy yellow fruit.

4 to 5 ft., B&B..... 3 50

5 to 6 ft., B&B..... 6 00

6 to 8 ft., heavy, B&B.....10 00

M. spectabilis. 12 to 15 ft.

Fragrant, double, delicate pink flowers. Beautiful upright plant. Bears small yellow fruit.

4 to 5 ft., B&B..... 3 50

5 to 6 ft., B&B..... 5 00

6 to 8 ft., heavy, B&B.....10 00

Flowering Trees

Flowering Japanese Cherries (Prunus)

Prunus • Flowering Japanese Cherry

This fine flowering tree from Japan thrives in this locality. The weeping variety blossoms early and is very attractive in its habit of growth. The blooms of the Upright Cherry come later and last longer. They are single or double, depending on variety, and their colors range from pure white through light and deep pink. They flower best in full sunlight.

Evergreens and Flowering Trees

Evergreens

Abies • Fir

Noble trees of majestic proportions are many of the Firs, and, on account of their rapid growth and hardiness, they may be classed among our most useful evergreens. Their habit of growth is pyramidal or conical, and their foliage ranges in color from light green to deep, somber, glaucous hues. They may be used in screens, backgrounds, or as specimens.

Abies concolor. *White Fir*. 50 to 60 ft.

A large, pyramidal tree, its silver-green foliage blending well with other evergreens. Does well in all soils. Used for screen work and lawn specimens.

	Each
6 to 8 ft., specimen.....	\$10 00
8 to 9 ft., specimen.....	15 00
9 to 10 ft., specimen.....	20 00

A. homolepis (brachyphylla). *Nikko Fir*. 100 to 120 ft.

From Nikko Mountains in Asia. A rapid-growing Fir with needles showing dark green above and light green beneath. One of the very best, it thrives in this locality.

3 to 4 ft.....	4 00
4 to 5 ft.....	5 00
5 to 6 ft.....	7 50

CEDRUS atlantica glauca. *Blue Atlas Cedar*.

60 to 70 ft.

A very distinctive ornamental tree with rich blue foliage.

6 to 8 ft.....	12 00
8 to 10 ft.....	15 00
10 to 12 ft.....	20 00

Evergreen prices include balling and burlapping

properly used in a garden arrangement

Chamaecyparis (Retinospora) • Cypress

Cypress is a large family of evergreens which thrives in various soil-conditions. Their uses are numerous because they vary in both color and size. Some grow into tall trees, while others are dwarf. Use this evergreen as a background for gardens, hedges, house foundations, and in rockeries. It must be used in the sunlight for best results. Most varieties grow rather rapidly.

Chamaecyparis obtusa gracilis. Hinoki Cypress.

12 to 15 ft.

Semi-dwarf with rich green color. Makes an ideal hedge.

	Each
1½ to 2 ft.....	\$2 50
2 to 3 ft.....	3 50
3 to 4 ft.....	5 00
4 to 5 ft.....	7 50

C. pisifera. Sawara Cypress. 40 to 50 ft.

Hardy. Fast grower. Green. Pyramidal form.

C. pisifera aurea. Golden Sawara Cypress. 30 to 40 ft.

Golden color. Hardy. Fast grower. Pyramidal form.

C. pisifera filifera. Thread Cypress. 20 to 25 ft.

A drooping evergreen. Good green color. Makes excellent specimens.

C. pisifera plumosa. Plume Cypress. 35 to 40 ft.

Feathery green foliage. Can be sheared into any shape desired. Fine for hedging.

C. pisifera plumosa aurea. Golden Plume Cypress.

25 to 30 ft.

Feathery golden foliage with habits similar to the Plumosa.

For other varieties of *Chamaecyparis* and prices, see page 22

Evergreens

Chamæcyparis pisifera squarrosa. Moss Cypress.
25 to 30 ft.

Cloudy blue foliage. Compact growth. Vigorous grower.

Sizes on all Chamæcyparis varieties unless otherwise noted	Each

12 to 14 ft., extra-heavy specimen.....	35 00

Juniperus • Juniper; Cedar

The Junipers are a large group of evergreens which grow in almost all parts of this country, as well as in many parts of the world. These plants are used extensively in garden work, due to their varying types and interesting habits of growth, either columnar, bushy, or spreading. All varieties are extremely hardy, have attractive foliage, varying in color from light to dark and even to a bluish green. Some have showy blue berries in the fall. They may be used as individual specimens, for screens, hedges, or in rock-gardens. They grow best in a well-drained soil in full sunshine, and for best results should be fed occasionally to maintain their color and artistic habits of growth.

Juniperus chinensis columnaris. Columnar Juniper.
20 to 25 ft.

A rapid-growing, narrow Cedar. Blue-green foliage. Should be trimmed annually.

	Each
3 to 4 ft.....	\$3 00

1½ to 2-ft. spread.....	3 00

J. sabina. Savin Juniper. 5 to 6 ft.

A good vase-shaped plant. Very hardy.

1½ to 2 ft.....	2 50
2 to 2½ ft.....	3 00
2½ to 3 ft.....	4 00

J. squamata meyeri. Meyer's Juniper. 6 to 8 ft.

A bushy, irregular Juniper, originating in China. Very rugged. A fine blue color.

2½ to 3 ft.....	4 00
-----------------	------

J. virginiana globosa. Globe Cedar. 3 to 4 ft.

A dwarf globe form of Cedar. Good for rockery use.

1½ to 2 ft.....	3 50
2 to 2½ ft.....	5 00

J. virginiana kosteri. Spreading Koster Juniper. 3 to 4 ft.

A low, spreading variety. Pleasing green foliage. Very good in low plantings.

2 to 2½ ft.....	3 00
2½ to 3 ft.....	4 00

J. chinensis fortunei. Fortune's Juniper. 20 to 25 ft.

A rather informal-growing Cedar. Gray-green foliage. Useful in mixed plantings.

J. virginiana cannarti. Cannart Juniper. 20 to 25 ft.

A very attractive Hybrid Cedar having dark green, bunchy foliage. Bears porcelain-blue fruit in late summer. One of the best upright Junipers.

J. virginiana glauca. Blue Cedar. 20 to 25 ft.

A fine Juniper. Good grouped with other evergreens. Distinctive on account of its blue color.

J. virginiana keteleeri. Keteleer Cedar. 18 to 20 ft.

A rugged, compact, pyramidal Cedar, bearing large light blue berries in the fall. Has very attractive foliage. Always free from disease.

J. virginiana schotti. Schott Juniper. 20 to 25 ft.

Closely resembling our native Cedar, a tall slim tree with blue berries in fall.

Evergreens

Juniperus chinensis sargentii. See page 23

Picea • Spruce

These rapid-growing evergreens are distinctively pyramidal in habit and thrive best standing in well-drained soil in the open sunshine. They are used as windbreaks, screens, hedges, or as individuals. As a specimen, this conifer is unsurpassed and should be given plenty of room for development, since some varieties grow to great heights and become more attractive with age. They are extremely hardy. Thousands are used every year for Christmas trees.

Picea omorika. *Serbian Spruce*. 40 to 50 ft.

This tree develops into a tall, narrow specimen. Contrasting foliage, green on top and blue on bottom of needle. Each

15 to 18 in.....	\$2 00

Evergreens

Pinus • Pine

Most of these well-known evergreens grow rapidly into large, rugged trees. They have attractive foliage of various colors, and are particularly well suited for windbreaks or screens, but they also grow into beautiful specimen trees. Some varieties thrive at the seashore, while others do best at higher elevations. All varieties, however, grow well under exposed or windy conditions and do best in full sunlight. Most Pines enjoy a light, well-drained soil.

Pinus flexilis. Limber Pine. 30 to 40 ft.

A beautiful Pine, too little used. Its graceful, gray-blue foliage blends well in all landscaping.

Pseudotsuga • Douglas Fir

This evergreen is a rapid, graceful grower. Its foliage varies from light to dark green, and in some types even to a bluish green. It is perfectly hardy and transplants easily. This conifer thrives in exposed locations and grows well in moist as well as well-drained soils. It is used for wind-breaks, screens, or as a specimen tree; also used extensively for Christmas trees.

Hoyt Nurseries and How to Reach It

600 ACRES

OUR NURSERY is located in the town of New Canaan, Conn., 40 miles from New York City and just $\frac{1}{2}$ mile north of the Merritt Parkway, which connects with Hutchinson River and other New York City and Westchester County parkway systems.

Approaching New Canaan from New York, turn right off the Merritt Parkway at the *Norwalk-New Canaan* exit. Turn right on State Highway passing back under Parkway and follow Hoyt Nursery signs for $\frac{3}{4}$ mile to Nursery.

Approaching on Merritt Parkway from Bridgeport and east, turn right off parkway at the *Norwalk-New Canaan* exit. Proceed straight ahead and follow Nursery signs $\frac{1}{2}$ mile to Nursery.

Evergreens

Pyramidal Arborvitæ

Thuja • Arborvitæ

The Arborvitæ is among the well-known American evergreens. Most varieties are tall, fast-growing, and are useful as hedges, windbreaks, backgrounds, and specimens in landscape work. The slower-growing and dwarf varieties are useful for foundation plantings and garden designs. The Arborvitæ is hardy and will thrive in all kinds of soil-conditions. Most varieties need full sunlight for best results.

Thuja lobbi atrovirens. Giant Arborvitæ. 35 to 40 ft.

Fast-growing, broad, pyramidal Arborvitæ, with slightly pendulous branches. Does very well in shade.

Tsuga • Hemlock

Stately grace and dignity characterize the Hemlock, which we consider the most beautiful of the larger North American evergreens. Its attractive dark green foliage weeps gracefully and is tipped with the bright green of new growth during the spring. Hemlocks are hardy and thrive in almost any soil. They tolerate the shade better than other evergreens and are very adaptable, being used for hedges, backgrounds for gardens, or as specimens. They stand shearing or pruning, or may be allowed to grow naturally.

Hemlocks are a Hoyt Specialty. We believe our Hemlocks are better grown, have better color, and develop into better plants when older, than the usual run of Hemlock.

Canadian Hemlock, 3 to 4 feet. Stocky plants of this character make excellent hedges. We have many thousand of this size and larger in our nursery.

An effective arrangement

Azaleas

Happily situated by being planted in full sunshine, but protected from winter winds, Azaleas produce brilliant blossoms of many colors. They want an acid soil, and during blossom-time require an abundance of moisture. Some of our native types grow into fairly large bushes, but most Azaleas seldom attain a height of more than 3 or 4 feet.

Taxus, Deutzia gracilis and Rhododendron carolinianum

Hardy Evergreen Shrubs

The importance of this class of plant material has long been recognized by many garden lovers. Since most are evergreen, they present an attractive appearance, in both summer and winter. They are comparatively slow growers, are easy to keep in bounds, and grow more beautiful with age. All of these varieties grow best in a somewhat acid soil, lightened by plenty of leaf-mold or peat-moss, and some require protected locations for best results. Certain varieties may be used with success in plantings in the shade.

ABELIA grandiflora. Glossy Abelia. 5 to 6 ft.

A dainty evergreen shrub bearing little bell-shaped pink flowers. Blooms throughout the summer until frost. Excellent for garden plantings.

	Each
15 to 18 in.....	\$1 25
1½ to 2 ft.....	1 50

BERBERIS julianæ. Wintergreen Barberry. 5 to 6 ft.

Evergreen Shrub prices include balling and burlapping

Rhododendrons

Rhododendrons are easy to grow. Planted in properly prepared soil, they will give satisfaction. There are many types to choose from, ranging from dwarf to tall-growing varieties. For best effects, group plantings are suggested. Good care is necessary. They must have an acid soil. Mulch with oak leaves or lawn clippings. Liberal watering during dry periods is essential.

Rhododendron carolinianum. *Carolina Rhododendron.*

5 to 6 ft.

Small-leaved variety with pink or white flowers. Semi-dwarf. Blooms in June.

	Each
1½ to 2 ft.....	\$3 00
2 to 3 ft.....	4 00
3 to 4 ft.....	5 00

R. catawbiense. *Catawba Rhododendron.* 8 to 10 ft.

Parent of many hybrids. Blooms in May and June. Rosy purple flowers.

2 to 3 ft.....	3 50
3 to 4 ft.....	5 00

R. maximum. *Rosebay Rhododendron.* 12 to 15 ft.

A good plant for shady places. The large leaves are of greater landscape value than the pale pink flowers. Blooms in late June. Prefers acid soil. Good for mass plantings.

HYBRID RHODODENDRON. Write for prices and sizes.

Specimen, *Viburnum sieboldi*. See page 56

Flowering Shrubs

Included among the Flowering Shrubs are those old favorites well known to all, as well as some worthy new varieties. We offer shrubs in two grades, a regular or standard grade, and our specimen grade.

Our standard shrubs are good, sturdy, well-grown plants which will thrive and grow rapidly into fine bushes.

The specimen shrubs are larger, well-developed plants which have been spaced and pruned in the nursery, and when used in plantings, give an immediate landscape effect.

ABELIA grandiflora. *Glossy Abelia.* 5 to 6 ft.

A dainty evergreen shrub bearing little bell-shaped pink flowers. Blooms throughout the summer until frost. Excellent for garden plantings. May be cut back every spring. Each

15 to 18 in., B&B.....\$1 25

1½ to 2 ft., B&B..... 1 50

AMELANCHIER canadensis. *Downy Shadbush.* 20 to 25 ft.

Native plant bearing white flowers in early spring. Fruit relished by birds. Grows well in wooded and wet sections.

2 to 3 ft..... 1 00

3 to 4 ft..... 1 25

ARALIA pentaphylla. *Five-leaf Aralia.* 7 to 8 ft.

Small green flower. Better known for its five-leaf foliage. Makes a good hedge. Branches are definitely thorny.

3 to 4 ft..... 1 00

Flowering Shrubs

ARONIA arbutifolia. *Red Chokeberry.* 8 to 10 ft.

White flowers tinged with red in early spring. Outstanding red fruit in fall.

	Each
1½ to 2 ft.....	\$0 75
2 to 3 ft.....	1 00
3 to 4 ft.....	1 50

A. melanocarpa. *Black Chokeberry.* 8 to 10 ft.

White flowers. Black fruit in fall.

2 to 3 ft.....	1 00
----------------	------

BENZOIN æstivale (*Lindera Benzoin*). *Spice Bush.*

6 to 8 ft.

Clusters of yellow flowers in April. Red berries in September, relished by birds. Good for moist ground.

2 to 3 ft.....	75
3 to 4 ft.....	1 00
4 to 5 ft.....	1 50

BERBERIS thunbergi. *Japanese Barberry.* 5 to 7 ft.

Small green leaves. Red berries in fall, which stay nearly all winter. Used extensively for hedging and ground-cover for rough banks.

1½ to 2 ft.....	\$20 per 100..	25
2 to 2½ ft.....	\$25 per 100..	30

B. thunbergi atropurpurea. *Redleaf Japanese Barberry.*

5 to 6 ft.

Similar to Thunbergi in habit. Bright red foliage in spring, reddish purple in summer and scarlet in fall.

15 to 18 in.....	50
------------------	----

BUDDLEIA farquhari. *Farquhar Butterfly Bush.*

8 to 10 ft.

Improved variety. Blooms all summer, with lilac-colored flowers. Attracts butterflies.

3-yr.....	75
-----------	----

B., Ile de France. *Hybrid Butterfly Bush.* 8 to 10 ft.

Clear rosy purple fragrant flowers during summer. A better variety.

3-yr.....	75
-----------	----

CALLICARPA purpurea. *Chinese Beauty Berry.*

4 to 5 ft.

Dense green foliage in summer. Bunches of mauve berries along its willowy branches in the fall.

2 to 3 ft.....	1 00
----------------	------

CALYCANTHUS floridus. *Sweet Shrub.* 8 to 9 ft.

Sweet-scented brown bud-like flowers in June. Good for mass plantings.

2 to 3 ft.....	1 00
3 to 4 ft.....	1 25

CEPHALANTHUS occidentalis. *Buttonbush.* 6 to 10 ft.

Creamy white flowers from July to September.

2 to 3 ft.....	75
3 to 4 ft.....	1 00

CLETHRA alnifolia. *Sweet Pepperbush.* 7 to 8 ft.

White flowers during June and July. Thrives in damp ground as well as upland.

2 to 3 ft.....	75

4 to 5 ft.....	1 00

Flowering Shrubs

Cornus amomum. Silky Dogwood. 6 to 8 ft.

Light red bark. Porcelain-blue berries in the fall.	Each
3 to 4 ft.....	\$1 00
4 to 5 ft.....	1 25
5 to 6 ft.....	1 50

C. mascula. Cornelian Cherry. 15 to 20 ft.

Gray bark. Shiny green foliage. Yellow flowers. Cherry-like scarlet fruit in fall.

3 to 4 ft., B&B.....	2 00
4 to 5 ft., B&B.....	2 50
5 to 6 ft., B&B.....	3 50

C. paniculata. Gray Dogwood. 10 to 12 ft.

White flowers in June and July. White berries in September.

2 to 3 ft.....	1 00
3 to 4 ft.....	1 50

C. stolonifera. Red Osier Dogwood. 8 to 10 ft.

Red bark adds color in winter. Fine foliage in summer.

3 to 4 ft.....	75
4 to 5 ft.....	1 00

C. stolonifera flaviramea. Golden-twigg Dogwood.

6 to 8 ft.

Bright yellow bark in winter. Blends well with Red-barked Dogwood.

3 to 4 ft.....	1 00
----------------	------

CYDONIA japonica. Japanese Flowering Quince.

6 to 8 ft.

Old-fashioned. Brilliant red flowers in early May.

2 to 2½ ft.....	75
-----------------	----

DEUTZIA gracilis. Slender Deutzia. 3 to 4 ft.

A dwarf Deutzia, with snowy white flowers. Valuable in border planting. Blooms in May.

15 to 18 in.....	75
1½ to 2 ft.....	1 00

D. gracilis rosea. 2 to 3 ft.

Numerous small pink flowers. Fine shrub where a low-growing plant is required.

15 to 18 in.....	75
------------------	----

D. lemoinei. Lemoine Deutzia. 4 to 5 ft.

Upright, spreading, semi-dwarf habit. White flowers borne in clusters. Blooms in May.

2 to 3 ft.....	1 00
----------------	------

D. scabra crenata. Double-flowering Pink Deutzia.

9 to 10 ft.

One of the finest tall-growing Deutzias. Pink and white blossoms in May.

4 to 5 ft.....	1 00
5 to 6 ft., specimen, B&B.....	2 50

D. scabra, Pride of Rochester. 9 to 10 ft.

Probably the best known of all the Deutzias. Grows 8 to 10 feet high. White to pale pink flowers in May.

4 to 5 ft.....	1 00
5 to 6 ft., specimen, B&B.....	2 50
6 to 7 ft., specimen, B&B.....	3 00

ELÆAGNUS angustifolia. Russian Olive. 15 to 18 ft.

Silvery gray leaves and branchlets. Orange berries.

4 to 5 ft., specimen, B&B.....	2 50
5 to 6 ft., specimen, B&B.....	3 50
6 to 8 ft., specimen, B&B.....	5 00

Flowering Shrubs

ENKIANTHUS campanulatus. *Redvein Enkianthus.*

5 to 6 ft.

An erect shrub growing 5 to 6 feet in height. Has pale yellow flowers in May. Its leaves turn a beautiful scarlet color in the fall.

2 to 3 ft., B&B..... Each \$2 00

EUONYMUS alatus. *Winged or Corky-barked Euonymus.* 7 to 8 ft.

A corky-barked tree with startling crimson foliage in the fall. Good plant for exposed places.

2 to 3 ft..... 1 00
3 to 4 ft., B&B..... 1 50
4 to 5 ft., specimen, B&B..... 2 00
5 to 6 ft., specimen, B&B..... 2 50
6 to 7 ft., specimen, B&B..... 4 00
7 to 8 ft., specimen, B&B..... 5 00

E. alatus compactus. *Dwarf Winged Euonymus.*

4 to 5 ft.

Same habit as Alatus, but in the dwarf form. Good for low hedges and foreground planting.

2 to 3 ft., B&B..... 2 00
3 to 4 ft., B&B..... 3 00

E. americana. *Brook Euonymus.* 10 to 12 ft.

Bright green foliage. Tall and erect in growth. Rose-colored fruit with scarlet seed-coats.

2 to 3 ft..... 1 00

E. europæus. *European Burningbush.* 10 to 12 ft.

A tall-growing Euonymus. Turns brilliant crimson in the fall. Light pink fruits hang on after leaves fall.

2 to 3 ft..... 1 00
3 to 4 ft..... 1 50

EXOCHORDA grandiflora. *Pearlbush.* 10 to 12 ft.

This fine shrub grows from 10 to 12 feet in height. Beautiful pearl-white flowers in May. It does well in damp places. One of the best shrubs.

3 to 4 ft..... 1 00

FORSYTHIA spectabilis. *Showy Border Forsythia.*

8 to 9 ft.

This showy Forsythia is a little darker yellow than other varieties. One of the best April bloomers.

3 to 4 ft..... 75
4 to 5 ft..... 1 00
5 to 6 ft., specimen, B&B..... 2 50

F. suspensa. *Weeping Golden Bell.* 6 to 8 ft.

Blooms in late April and early May. Excellent for sprawling over walls, or on steep banks.

2 to 3 ft..... 75
3 to 4 ft..... 1 00
4 to 5 ft..... 1 25

F. suspensa fortunei. *Fortune's Golden Bell.* 8 to 9 ft.

Blooms in late April and early May. Has especially attractive yellow branches.

3 to 4 ft..... 75
4 to 5 ft..... 1 00
5 to 6 ft..... 1 25
5 to 6 ft., specimen, B&B..... 2 50

Forsythia spectabilis. See page 47

Forsythia viridissima. Green-stem Forsythia. 6 to 8 ft.

Blooms in late April and early May. Beautiful fall foliage of bronze.

	Each
3 to 4 ft.....	\$0 75
4 to 5 ft.....	1 00
4 to 5 ft., specimen, B&B.....	2 00
5 to 6 ft., specimen, B&B.....	2 50

HALESIA tetraptera. Silverbell. 20 to 25 ft.

Pure white, dangling, bell-shaped flowers in May, followed by brown winged seeds.

4 to 5 ft., B&B.....	2 50
5 to 6 ft., B&B.....	3 50

HAMAMELIS mollis. Chinese Witch-Hazel. 10 to 12 ft.

Golden yellow flowers in February borne in good-sized clusters on the ends of stubby branchlets.

2 to 3 ft., specimen, B&B.....	3 00
--------------------------------	------

H. virginiana. Witch-Hazel. 12 to 15 ft.

Lemon-color flowers, blooming in late autumn after leaves fall.

4 to 5 ft.....	1 50
5 to 6 ft.....	2 00
6 to 8 ft.....	3 00

Hibiscus Syriacus • Althea; Rose of Sharon

The Hibiscus, often known as Althea or Rose of Sharon, blooms from July to September, when so few of our shrubs are in flower. They grow as high as 8 to 12 feet and may be procured in various colors, some being double. Our Hibiscus are carefully grown and are true to name and color.

Single-flowering Type

Hibiscus syriacus cœlestis.

Single blue hybrid. Blooms from August to early autumn.

2 to 3 ft.....	1 50
3 to 4 ft.....	2 00

H. syriacus rubis.

Single red hybrid. Blooms from August to early autumn.

3 to 4 ft.....	1 50
4 to 5 ft., specimen, B&B.....	2 00
5 to 6 ft., specimen, B&B.....	2 50

H. syriacus totus albus.

Single; white. Blooms from August to early autumn.

2 to 3 ft.....	1 00
3 to 4 ft.....	1 50
3 to 4 ft., specimen, B&B.....	2 50

Flowering Shrubs

Double-flowering Hibiscus

Hibiscus syriacus anemonæflorus.

Double; pink. Blooms from August to early autumn.

	Each
3 to 4 ft.....	\$1 50
4 to 5 ft., specimen, B&B.....	2 00
5 to 6 ft., specimen, B&B.....	2 50

H. syriacus, Duchesse de Brabant.

Double; red. Blooms from August to early autumn.

4 to 5 ft., specimen, B&B.....	2 25
5 to 6 ft., specimen, B&B.....	2 50

H. syriacus, Jeanne d'Arc.

Double; white. Blooms from August to early autumn.

3 to 4 ft.....	1 00
4 to 5 ft.....	1 50
4 to 5 ft., specimen, B&B.....	2 50

H. syriacus, Lady Stanley.

Double; blush-pink. Blooms from August to early autumn.

3 to 4 ft.....	1 25
4 to 5 ft.....	1 50
4 to 5 ft., specimen, B&B.....	2 50
5 to 6 ft.....	2 00

HYDRANGEA arborescens. Hills of Snow. 4 to 5 ft.

Bears large heads of white flowers in June. Light green foliage.

2 to 3 ft.....	1 00
----------------	------

H. paniculata grandiflora. Peegee Hydrangea. Bush form.

4 to 5 ft.

Blooms on new growth, August to frost. White, gradually turning to pink. Must be trimmed back severely each year.

2 to 3 ft.....	60
3 to 4 ft.....	75

ILEX verticillata. Black Alder; Winterberry. 8 to 10 ft.

Native shrub. Bright red berries in late fall, lasting well into the winter. Good Christmas decorations.

1½ to 2 ft.....	75
2 to 3 ft.....	1 00
3 to 4 ft.....	1 50
4 to 5 ft.....	2 00

JASMINUM nudiflorum. Winter Jasmine. 3 to 4 ft.

Vine-like shrub. Has long, trailing green branches. Yellow flowers in February and March before leaves appear.

2 to 3 ft.....	1 00
----------------	------

KERRIA japonica. Double-flowering Globe Flower.

4 to 5 ft.

Double, yellow, rose-shaped flowers in May. Green-yellow bark.

2 to 3 ft.....	1 00
----------------	------

KOLKWITZIA amabilis. Beauty Bush. 5 to 6 ft.

Branches arching to ground with beautiful dainty pink flowers in June. Truly one of the best flowering shrubs. Good for flower arrangements.

3 to 4 ft.....	1 25
3 to 4 ft., specimen, B&B.....	2 50
4 to 5 ft., specimen, B&B.....	3 00

LIGUSTRUM amurense. Amur River Privet. 14 to 15 ft.

Rapid-growing. Bears black fruit in fall.

4 to 5 ft., specimen, B&B.....	2 00
--------------------------------	------

L. ibota regelianum. Regel's Privet. 4 to 6 ft.

Fine for shady spots. A spreading, irregular, dense-growing Privet. Bears black fruit in fall. Excellent for massing or for hedges.

1½ to 2 ft.....	75
2 to 2½ ft.....	1 00
2½ to 3 ft.....	1 50

Flowering Shrubs

Ligustrum ovalifolium. California Privet. 10 to 15 ft.

Well-known hedge-plant. Shiny green foliage.	Each
3 to 4 ft.....	\$12 per 100..\$0 15
4 to 5 ft.....	\$20 per 100.. 25

LONICERA fragrantissima. Winter Honeysuckle.

6 to 8 ft.

So named because its foliage clings after heavy frosts. Blooms in early April, with creamy white flowers similar in odor to those of honeysuckle vine. Bears red fruit in summer.

3 to 4 ft.....	75
4 to 5 ft.....	1 00
4 to 5 ft., specimen, B&B.....	2 50

L. korolkowi. Round Blueleaf Honeysuckle. 8 to 10 ft.

Bears delicate pink flowers in May followed by brilliant red berries. Needs plenty of room.

3 to 4 ft., specimen, B&B.....	2 00
4 to 5 ft., specimen, B&B.....	3 00

L. morrowi. Morrow's Bush Honeysuckle. 7 to 8 ft.

A native of the Orient. Broad, spreading habit. Bears small white flowers tinged with yellow, followed by bright red fruit.

3 to 4 ft.....	75
4 to 5 ft.....	1 00

L. tatarica alba. White Tatarian Honeysuckle. 8 to 10 ft.

A tall-growing shrub with white flowers. Covered with scarlet fruit in late summer. Does well in the shade.

3 to 4 ft.....	75
----------------	----

L. tatarica rosea. Pink Tatarian Honeysuckle. 8 to 10 ft.

3 to 4 ft.....	75
3 to 4 ft., specimen, B&B.....	2 00
4 to 5 ft., specimen, B&B.....	2 50

L. tatarica rubra. Red Tatarian Honeysuckle. 8 to 10 ft.

3 to 4 ft.....	75
3 to 4 ft., specimen, B&B.....	2 00

PHILADELPHUS coronarius. Sweet Mock Orange.

8 to 10 ft.

The old-fashioned Sweet Syringa or Mock Orange. This is an old favorite with snow-white flowers in May and June.

3 to 4 ft.....	75
4 to 5 ft.....	1 00
5 to 6 ft.....	1 50
5 to 6 ft., specimen, B&B.....	2 50
6 to 7 ft., specimen, B&B.....	3 50

P. coronarius aureus. Golden Mock Orange. 3 to 4 ft.

A dwarf grower with golden foliage and white flowers. Good for border plantings.

1½ to 2 ft.....	1 00
-----------------	------

P. grandiflorus. Big Mock Orange. 12 to 15 ft.

A large-flowering, tall-growing type. Useful for background planting.

4 to 5 ft.....	1 00
7 to 8 ft., specimen, B&B.....	3 50

P., Virginal. Double-flowering Philadelphus.

6 to 8 ft.

A double-flowering variety fast becoming a favorite, with its fragrant gardenia-like flowers.

2 to 3 ft.....	75
3 to 4 ft.....	1 00
3 to 4 ft., specimen, B&B.....	2 00
4 to 5 ft., specimen, B&B.....	2 50

Flowering Shrubs

Philadelphus, Virginal. See page 50

PHOTINIA villosa. Christmas Berry.

12 to 15 ft.

A large-growing shrub. Looks like a hawthorn. Leaves turn vivid red in fall, followed by scarlet fruit. Each

6 to 8 ft., specimen, B&B	\$5 00
8 to 10 ft., specimen B&B	7 50

RHODOTYPOS kerrioides. Jetbead.

5 to 6 ft.

A handsome shrub bearing dainty white flowers in May and June, followed by jet-black seed borne in clusters and hanging on all winter.

2 to 3 ft.....	75
3 to 3½ ft.....	1 00
3 to 4 ft., specimen, B&B.....	2 00
4 to 5 ft., specimen, B&B.....	2 50

ROSA, Grootendorst, Pink. 4 ft. Shrub Rose.

Clusters of small light shell-pink; blooms the whole flowering season.

3 to 4 ft.....	1 00
----------------	------

R. hugonis. Father Hugo's Rose. 6 to 8 ft. Shrub Rose.

Blooms profusely, with yellow flowers in early May. Fern-like foliage. A splendid hardy shrub Rose for the garden.

1½ to 2 ft.....	75
2 to 3 ft., B&B.....	1 50

Flowering Shrubs

SPIRÆA bumalda, Anthony Waterer. *Crimson Ever-blooming Spirea*. 3 ft.

Flat, rose-pink flowers during hottest days of summer, and lasting until early fall. Dwarf grower. Each

1½ to 2 ft.....\$0 75

S. prunifolia. *True Bridal Wreath*. 6 to 8 ft.

Small, pure white, double, bud-like flowers in early May. Upright grower.

2 to 3 ft..... 1 25

3 to 4 ft..... 1 50

S. thunbergi. *Thunberg's Spirea*. 6 to 7 ft.

Arching branches covered with tiny, single, snow-white flowers in very early spring. The feathery green foliage turns orange and scarlet in autumn.

2 to 3 ft..... 75

3 to 4 ft., specimen, B&B..... 2 00

S. trichocarpa. *Korean Spirea*. 6 to 7 ft.

White clusters of flowers during late May. Similar growth to *S. vanhouttei*.

3 to 4 ft..... 75

4 to 5 ft..... 1 00

S. vanhouttei. *Vanhoutte Spirea*. 6 to 7 ft.

Commonly called Bridal Wreath. Showy, arching sprays of clustering white flowers in late May. An aristocrat of flowering shrubs.

2 to 3 ft..... 60

3 to 4 ft..... 75

4 to 5 ft., specimen, B&B..... 2 00

5 to 6 ft., specimen, B&B..... 2 50

STEPHANANDRA flexuosa. *Cutleaf Stephanandra*. 5 to 6 ft.

Compact grower. Has reddish purple color in autumn.

2 to 3 ft..... 75

3 to 4 ft., specimen, B&B..... 2 50

SYMPHORICARPOS racemosus. *Snowberry*. 4 to 5 ft.

Known for its large white berries in September which weigh down the slender branches. Fruit clings until frost. Very hardy. Suitable for most soil-conditions. Stands shade.

2 to 3 ft..... 75

S. vulgaris. *Coralberry*. 4 to 5 ft.

Bears small coral fruit which clings from fall till early spring. Very hardy.

2 to 3 ft..... 75

SYMPLOCOS paniculata. *Asiatic Sweetleaf*. 4 to 5 ft.

White flowers in spring. Heavily laden with turquoise-blue berries in early autumn.

2 to 3 ft., B&B..... 2 00

Symphoricarpos racemosus

Specimen Double Lilac

Syringa • Lilacs

Spring is at its height when the Lilacs are in flower. Of the many flowering shrubs, the Lilac is surely the most reliable, lasts longer, and annually bears the handsomest flowers. Lilacs are hardy, thrive almost anywhere, and have very attractive foliage.

The Hybrid varieties are the most popular with their large, single or double flower-heads. They are equally as fragrant as the old-fashioned type and have exactly the same growing characteristics. Our Hybrids are all grown on Lilac roots, a necessity for proper development of the plant. We believe these plants the most worthy of all flowering shrubs. Lilacs want a sweet soil and blossom best when in full sunshine.

All Hybrid Lilacs are balled and burlapped

S. vulgaris alba. Common White Lilac. 12 to 15 ft.

Single. Pure white.

4 to 5 ft., B&B.....	1 50
5 to 6 ft., specimen, B&B.....	3 00

VACCINIUM corymbosum. Highbush Blueberry. 5 to 6 ft.

This native shrub has pink flowers followed by edible blue-black berries. Its leaves turn brilliant red in the fall. Does well in acid soil and needs plenty of moisture.

2 to 3 ft., B&B.....	1 50
3 to 4 ft., specimen, B&B.....	2 50

Viburnum . Snowball

Viburnum americanum. American Cranberry.

10 to 12 ft.

A handsome shrub growing from 10 to 12 feet high, bearing large clusters of berries which start turning a deep red about the first of August and hang on all winter.

4 to 5 ft., specimen, B&B.....	2 50
5 to 6 ft., specimen, B&B.....	3 00
6 to 8 ft., specimen, B&B.....	4 00

V. carlesi. Fragrant Viburnum. 4 to 5 ft.

This beautiful semi-dwarf shrub starts blooming in May. Flowers are soft pink and very fragrant. Good in garden and border plantings.

1½ to 2 ft., specimen, B&B.....	1 50
2 to 3 ft., specimen, B&B.....	2 50

V. cassinoides. Withe-Rod. 6 to 8 ft.

A fine type of native shrub. Has creamy white blossoms followed by fruit clusters turning various colors. Its leaves are brilliant red in the fall.

2 to 3 ft., specimen, B&B.....	1 50
3 to 4 ft., specimen, B&B.....	2 00
4 to 5 ft., specimen, B&B.....	3 00

V. dentatum. Arrow-wood. 10 to 15 ft.

A tall-growing type flowering in May and June. Bears blue-black berries in profusion. Its leaves turn purple and red. Withstands shade; also wet places.

2 to 3 ft.....	75
3 to 4 ft.....	1 00
5 to 6 ft., specimen, B&B.....	2 50
6 to 7 ft., specimen, B&B.....	3 00

V. dilatatum. Linden Viburnum. 8 to 10 ft.

A Chinese variety with white flowers in May and June. Its leaves turn a bright autumn red and its small scarlet berries hang on all winter. One of the best Viburnums.

2 to 3 ft., specimen, B&B.....	2 00
3 to 4 ft., specimen, B&B.....	2 50
4 to 5 ft., specimen, B&B.....	3 00

V. lentago. Nannyberry. 15 to 20 ft.

A tree-like shrub, rather slender in growth. White flowers in May. Leaves turn a reddish color in fall. Has large blue-black fruit. Grows well in damp places.

4 to 5 ft.....	1 00
4 to 5 ft., specimen, B&B.....	2 00
5 to 6 ft., specimen, B&B.....	2 50
6 to 7 ft., specimen, B&B.....	3 00

Flowering Shrubs

Viburnum molle. Kentucky Viburnum. 10 to 12 ft.

A western variety. Grows 10 to 12 feet high. Very hardy.
Similar to *V. dentatum*. Each

2 to 3 ft., B&B.....\$1 50
3 to 4 ft., B&B..... 2 00

V. opulus. Highbush Cranberry. 10 to 12 ft.

The European Cranberry. A very good bush bearing quantities of large clusters of glossy red berries. Good foliage.

4 to 5 ft., specimen, B&B..... 2 50
5 to 6 ft., specimen, B&B..... 3 00
6 to 8 ft., specimen, B&B..... 4 00

V. prunifolium. Black Haw. 10 to 12 ft.

A slow-growing, round-headed shrub, bearing pure white flowers followed by pink fruit turning to blue-black. Attractive in winter.

2 to 3 ft., B&B..... 2 00
3 to 4 ft., specimen, B&B..... 2 50

V. rhytidophyllum. Leatherleaf Viburnum. 8 to 10 ft.

A bushy evergreen shrub holding its leaves all winter and bearing striking red berries.

2 to 3 ft., specimen, B&B..... 2 00
3 to 4 ft., specimen, B&B..... 2 50

V. sieboldi. Siebold Viburnum. 10 to 12 ft.

Rapid growing. Large, dark green leaves. Creamy white flowers, followed by fruit which starts green, turning to pink and then black. Striking in appearance.

3 to 4 ft., specimen, B&B..... 2 25
4 to 5 ft., specimen, B&B..... 2 50
5 to 6 ft., specimen, B&B..... 3 00
6 to 8 ft., specimen, B&B..... 4 00

V. tomentosum. Single Japanese Snowball. 8 to 10 ft.

This superb shrub has a tree-like habit of growth, producing its spreading branches in layers. In June, these horizontal limbs are covered with wheel-like clusters of dazzling white flowers.

3 to 4 ft..... 1 00
4 to 5 ft..... 1 25
4 to 5 ft., specimen, B&B..... 2 50
5 to 6 ft., specimen, B&B..... 3 00

V. tomentosum plicatum. Double Japanese Snowball.

7 to 8 ft.

These happy-go-lucky shrubs produce attractive snowball-like flowers in late May.

3 to 4 ft..... 1 00
4 to 5 ft..... 1 25
4 to 5 ft., specimen, B&B..... 2 50
5 to 6 ft., specimen, B&B..... 3 00
6 to 7 ft., specimen, B&B..... 3 50

VITEX agnus-castus. Lilac Chaste Tree.

5 to 6 ft.

Lavender flowers in September, offset by star-like gray-green foliage. Requires sunlight.

2 to 3 ft..... 1 00

WEIGELA candida. White Weigela.

8 to 10 ft.

Cream-white flowers in early June, nearly outnumbering its young foliage. Rapid grower.

2 to 3 ft..... 75
5 to 6 ft., specimen, B&B..... 2 50

W., Eva Rathke. Red-flowering Weigela. 4 to 5 ft.

Dwarf-growing plant; dark red flowers.

2 to 3 ft..... 1 00

Flowering Shrubs

- Weigela floribunda. Crimson Weigela.** 6 to 8 ft.
 Large-growing, profuse bloomer in early June. Each
 4 to 5 ft. \$0 75
 5 to 6 ft. 1 00
- W. hendersoni. Crimson Weigela.** 6 to 8 ft.
 Large, abundant bloomer in late May and June
 4 to 5 ft. 75
 5 to 6 ft. 1 00
- W. rosea. Pink and White Weigela.** 6 to 8 ft.
 Good color and dwarf growth give this plant an advantage.
 Wonderful for hedge plantings.
 3 to 4 ft. 75

Hardy Vines

- ACTINIDIA arguta. Bower Actinidia.**
 A vine which will climb 20 to 30 feet. Good for trellises,
 walls, and tree trunks. It has handsome foliage. White flowers
 followed by clusters of greenish fruits. Each
 3-yr., field-grown. \$1 00
- AKEBIA quinata. Five-leaf Vine.**
 A dainty, beautiful vine with curious purple flowers borne in
 May. It is almost an evergreen.
 3-yr., field-grown. 1 00
- AMPELOPSIS heterophylla. Porcelain Vine.**
 So named on account of its turquoise-blue berries. Its leaves,
 somewhat grape-like in form, turn a fine autumn shade.
 3-yr. 1 00
- A. lowi. Geranium Creeper.**
 A dwarf type of Boston Ivy. Clings to smooth surfaces.
 Colors in the fall like Boston Ivy.
 2-yr. 1 10
- A. quinquefolia. Virginia Creeper; Woodbine.**
 Hardy, fast-growing. A five-leaved Ivy, crimson in fall.
 3-yr., field-grown. 75
- A. quinquefolia engelmanni. Engelmann Creeper.**
 Similar to *A. quinquefolia* but has smaller leaves. Very bril-
 liant fall coloring.
 3-yr., field-grown. 75
- A. tricuspidata veitchi. Japanese or Boston Ivy.**
 This Ampelopsis will cling to stone and wood. It is a dense
 grower. Its leaves turn a brilliant color in fall.
 2-yr., field-grown. 75
- ARISTOLOCHIA sipho. Dutchman's Pipe.**
 A fast-growing, broad-leaved vine with purple pipe-shaped
 flowers in July.
 3-yr. 1 50
- BIGNONIA, Mme. Gallen.**
 Large orange-scarlet flowers in August and September.
 2-yr. 1 00
 3-yr., field-grown. 1 50
- B. radicans. Trumpet Creeper.**
 A self-clinging vine with scarlet flowers.
 3-yr., field-grown. 75
- CELASTRUS scandens. Bittersweet.**
 The native Bittersweet. Drooping clusters of orange and
 scarlet berries which are showy after the leaves fall. Good for
 covering stone walls or barren landscape; also used for house
 decorations.
 3-yr., field-grown. 50
- CLEMATIS paniculata. Small White-flowered Clematis.**
 3-yr., field-grown. 60

Hardy Vines

EUONYMUS colorata.

Brilliant red-tinted foliage in the autumn. Makes a good ground-cover.

2-yr.....	Each \$0 50
3-yr., field-grown.....	75

E. radicans. Winter Creeper.

Self-clinging. Its small pointed leaves make a dense covering for almost any type of wall. Very hardy.

2-yr.....	50
3-yr., field-grown.....	75

E. radicans carrierei. Glossy Winter Creeper.

Large shiny leaves. Good grower. Red fruit. Fine ground-cover; also good wall-vine.

2-yr.....	50
-----------	----

E. vegetus. Big-leaf Winter Creeper.

Called Evergreen Bittersweet. Round leaves of dull green color. Does well in any position. A self-clinging vine. Has fine orange-colored fruit.

3-yr., field-grown.....	1 00
-------------------------	------

HEDERA baltica. Hardy English Ivy.

Very much like English Ivy only smaller leaved. Very hardy. Clings tightly. Should be better known.

3 to 5 stems per plant, 12 to 18 in., in 3-in. pots..	75
---	----

H. helix. English Ivy.

Happily located, this is a very desirable vine. Has good dark green foliage and is long-lived.

8 to 12 stems per plant, 3 to 3½ ft., in 4-in. pots..	
\$7.50 per 10; \$60 per 100..	1 00

HYDRANGEA petiolaris. Climbing Hydrangea.

Good for a wall-cover or on stone buildings. Flowers fragrant, white, blooming in early summer. Does well in exposed spots.

4-yr., potted.....	1 50
--------------------	------

LONICERA japonica halliana. Hall's Japanese Honey-suckle.

Almost evergreen. Flowers yellow and white; very sweet. Used as a ground-cover. Is an old favorite on trellises.

2-yr., field-grown.....	\$35 per 100.. 50
-------------------------	-------------------

POLYGONUM auberti. Silver Lace Vine.

Known as Chinese Fleece Vine. Has been known to grow 25 to 30 feet in one season. Flowers are fleecy white. Will grow in any location.

2-yr., field-grown.....	75
-------------------------	----

Wisteria

A very strong grower. It has attractive pale green foliage and, early in summer, a great profusion of flowers in long, pendulous clusters. Our plants were grafted from selected, large-flowering vines and are **guaranteed** to bloom.

We offer Wisteria plants in tubs which may be moved at any time during the season with perfect safety.

Wisteria sinensis. Blue Wisteria.

3-yr.....	1 50
8-ft. staked vines in tubs.....	5 00
8-ft. heavy staked vines in tubs.....	7 50

W. sinensis alba. White Wisteria.

2-yr.....	1 00
-----------	------

W. sinensis. Blue Tree or Standard Wisteria.

3-ft. stems in tubs.....	5 00
4-ft. stems in tubs.....	7 50

Vines and Cover Plants

Blue Wisteria (*Wisteria sinensis*). See page 58

Climbing Roses

3-yr. plants, 75 cts. each

American Pillar. Single; sparkling pink.
 Dorothy Perkins. Tiny clusters. Shell-pink.
 Dr. Huey. Semi-double; crimson-maroon.
 Dr. W. Van Fleet. Double; pale pink.
 Jacotte. Semi-double; orange-yellow.
 Mary Lovett. Double; white.
 Mary Wallace. Double; bright pink.
 Paul's Scarlet. Double; scarlet flowers.
 Silver Moon. Nearly single. Creamy flowers.
 Wichuraiana. Single; white. Late bloomer.

Ground-Cover Plants

COTONEASTER horizontalis. <i>Rock Cotoneaster</i> .	Each
10 to 12 in., pot-grown.....	\$1 00
12 to 15 in., pot-grown.....	1 25
15 to 18 in., pot-grown.....	1 50

HEDERA helix. <i>English Ivy</i> .	
8 to 12 stems per plant, 3 to 3½ ft., in 4-in. pots..	
\$7.50 per 10; \$60 per 100..	1 00

JUNIPERUS chinensis sargentii. <i>Sargent Juniper</i> .	
15 to 18-in. spread, B&B.....	2 00
1½ to 2-ft. spread, B&B.....	3 00

J. horizontalis. <i>Creeping Juniper</i> .	
15 to 18-in. spread, B&B.....	2 00
1½ to 2-ft. spread, B&B.....	3 00

LONICERA japonica halliana. <i>Hall's Japanese Honeysuckle</i> .	
2-yr., field-grown.....	50

PACHYSANDRA terminalis. <i>Japanese Spurge</i> .	
Used extensively as a ground-cover. It is also used to border laurel and rhododendron plantings. Good to plant under trees where grass will not grow.	
3-in. pots (4 per sq. ft.).....	\$15 per 100.. 25

VINCA minor. <i>Myrtle; Periwinkle</i> .	
Does well in shady places; also used as a ground-cover and rockery plant. Dark shiny leaves and blue blossoms. Does not grow well under maple trees where ground is bare.	
2½-in. pots (4 per sq. ft.).....	\$15 per 100.. 25

V. minor, Bowles Variety.	
A good everblooming variety. It is a fine ground-cover or border plant. Blue blossom.	
3-in. pots (4 per sq. ft.).....	\$18 per 100.. 25

Bearing-size Apple Tree. 7 to 8-inch diameter stem, height 15 feet, spread 15 to 18 feet. Photographed October, 1937. Prices on application.

Fruit Department

Apple Trees

Apple trees in the ages from 2 to 12 years are listed below. Some of these trees have reached bearing size and are large enough to be planted for purely landscape effects, as well as for fruit. They have been transplanted apart in the nursery and properly pruned, so that a well-grown head will develop.

Besides the trees offered here, we offer heavy specimen bearing trees up to 10 inches in diameter, 15 to 18 feet high with 15 to 25-foot top-spread. These will be priced on application.

Apples, Standard

- $\frac{1}{8}$ -in. caliper, 5 to 6 ft. high, \$1 each
- $\frac{3}{4}$ to 1-in. caliper, 6 to 8 ft. high, \$1.50 each
- $1\frac{1}{2}$ to $1\frac{3}{4}$ -in. caliper, 6 to 8 ft. high, \$3.50 each
- $1\frac{3}{4}$ to 2-in. caliper, 6 to 8 ft. high, \$6 each
- 2 to $2\frac{1}{2}$ -in. caliper, 8 to 10 ft. high, \$10 each
- $2\frac{1}{2}$ to 3-in. caliper, 8 to 10 ft. high, \$18 each
- 3 to $3\frac{1}{2}$ -in. caliper, 10 to 12 ft. high, B&B, \$25 each
- $3\frac{1}{2}$ to 4-in. caliper, 10 to 12 ft. high, B&B, \$35 each
- 4 to $4\frac{1}{2}$ -in. caliper, 12 to 15 ft. high, B&B, \$40 each

SUMMER VARIETIES

- Red Astrachan. Flesh, tinged with red.
- Yellow Transparent. Pale yellow.

AUTUMN VARIETIES

- Cortlandt. Dark red.
- Duchess of Oldenburg. Large; streaked with yellow and red.
- Fall Pippin. Tender; juicy. Yellow-green.
- Gravenstein. Striped red. High flavor.
- McIntosh Red. Delicious; juicy.
- Wealthy. Dark red.

WINTER VARIETIES

- Baldwin. Large; dark red.
- Delicious. Red; juicy.
- Galleon Beauty. Large; red.

Fruit Trees

APPLES, WINTER, continued

King. Large; red.
Northern Spy. Large; striped red.
Rhode Island Greening. Large; greenish yellow.
Rome Beauty. Large; red.
Stayman's Winesap. Medium to large; dark red.

Crab-Apples

$\frac{11}{16}$ -in. caliper, 5 to 6 ft. high, \$1.50 each
 $1\frac{1}{2}$ to 2-in. caliper, 6 to 8 ft. high, \$5 each
2 to $2\frac{1}{2}$ -in. caliper, 8 to 10 ft. high, \$10 each

Dolga. Crimson fruit. September. (\$1.50 size only.)
Hyslop. Crimson fruit. October. (\$1.50 and \$5 sizes.)
Transcendent. Yellow and red. September. (\$1.50, \$5 and \$10 sizes.)

Apples, Dwarf

3-yr., $\frac{1}{2}$ -in. caliper, \$1.50 each; 4-yr., 1 to $1\frac{1}{4}$ -in. caliper, \$3.50
Delicious. Red; juicy. Winter.
McIntosh. Delicious; juicy. Autumn.
Red Astrachan. Flesh, tinged with red. Summer.
Wealthy. Dark red. Early autumn.
Yellow Transparent. Pale yellow. Summer.

Cherries, Sour

$\frac{1}{2}$ -in. caliper, \$1.50 each

Early Richmond. Medium; red. June.
Montmorency. Large; red. June.
Morello. Medium; red. Late June.

Cherries, Sweet

$\frac{1}{2}$ -in. caliper, \$2 each; 1 to $1\frac{1}{2}$ -in. caliper, \$5

Bing. Large; red. June.
Black Tartarian. Large; purplish black. June.
Governor Wood. Yellow. June.
Napoleon Bigarreau. Fine yellow. July.

Peaches

$\frac{1}{2}$ -in. caliper, 75 cts. each

Belle of Georgia. Large; white. Early September.
Carman. White flesh. August.
Champion. Large; white. Early September.
Crawford's Early. Yellow. September.
Elberta. Large; yellow. Early September.
J. H. Hale. Large; yellow. Early September.
South Haven. Large; yellow. Early September.

Pears, Standard

2-yr., $\frac{1}{2}$ -in. caliper, \$1.50 each; 4-yr., 1 to $1\frac{1}{2}$ -in. caliper, \$3;
5-yr., $1\frac{1}{2}$ to 2-in. caliper, \$5

SUMMER VARIETIES

Bartlett. Yellow and red fruit.
Clapp's Favorite. Yellow and crimson.

AUTUMN VARIETIES

Beurre Bosc. Yellow-russeted.
Seckel. Small; sweet; juicy; brown.
Sheldon. Yellow and red fruit.

WINTER VARIETIES

Beurre d'Anjou. Greenish yellow; juicy.
Duchesse d'Angouleme. Yellow; juicy.
Kieffer. Greenish yellow; juicy.

Pears, Dwarf

2-yr., $\frac{5}{8}$ -in. caliper, \$1.50 each

Bartlett. Yellow and red fruit. Summer.
Clapp's Favorite. Yellow and crimson. Summer.
Seckel. Small; sweet; juicy; brown. Autumn.

Plums

$\frac{11}{16}$ -in. caliper, \$1.50 each; $1\frac{1}{2}$ to 2-in. caliper, \$5;
2 to $2\frac{1}{2}$ -in. caliper, \$10

Abundance. Japanese. Yellow. August.

Bradshaw. Purple. September. (\$1.50 size only.)

Burbank. Japanese. Large, red fruit. August.

German Prune. Blue. September.

Green Gage. Greenish yellow. September. (\$1.50 size only.)

Lombard. Purplish red. August.

Quince

$\frac{5}{8}$ -in. caliper, \$1.50 each

Orange. Fruit very large; fair. October.

Grapes

3-yr., 40 cts. each, \$1.75 for 5

Brighton. Large; red. September.

Concord. Best black. September.

Delaware. Small; red. September.

Green Mountain. Green. Late August.

Niagara. Fine white. Late September.

Worden. Large; blue. Late August.

Raspberries

2-yr transplants, 15 cts. each, \$1.50 per doz.

Cuthbert. Rich crimson.

Latham. Everbearing. Red.

Plum Farmer. Blackcap.

Blackberries

2-yr. transplants, 15 cts. each, \$1.50 per doz.

Blowers. Very large. Ripens early.

The following materials will be delivered on our scheduled trips. Special deliveries at extra charge

Peat Moss and Humus

Peat Moss and Humus are recommended for mulching and planting broad-leaf evergreens and for general garden use.

Peat Moss (Horticultural Grade). \$4.50 per bale; \$1.50 per bag.

Humus. \$7.50 per yard; \$1.25 per bag.

Bone Meal

Excellent quality Bone Meal, high nitrogen content. \$3.50 per 100 lbs.; \$2.25 per 50 lbs.; \$1.25 per 25 lbs.

Top Soil, \$4 per yard.

Manure, \$7.50 per yard.
